VISION STATEMENT

"To be a trusted partner that's powered by passionate minds, creating innovative solutions."

MISSION STATEMENT

Through our interaction in the local market environment we have come to appreciate the fact that there are many grey areas in the different IT fields which are yet to be understood and effectively implemented by several businesses and organizations in the region. As a company our goal is to apply our wealth of knowledge and experience to companies, organizations, projects and individuals so as to increase their effectiveness, competitiveness, profitability and commercial viability.

BRIEF OVERVIEW

KAINGroup Ltd. is a total IT service delivery and consultancy company. The company was conceived in 2008 and incorporated in 2009 by a team of highly trained and talented professionals who wished to pool their talents and experience with a main purpose of providing a better focused and results oriented professional service in the IT sector. Our core staff has vast experience gained in many countries like Germany, UK and India. We presently have 4 permanent staff members and 1 part time trainees.

KAINGroup Ltd. builds its confidence through sound fundamentals, proven history, and robust infrastructure. Committed to the highest standards of corporate governance and information transparency, led by a team of visionary executives and widely recognized management practices, KAINGroup Ltd. provides a full range of services, heterogeneous technology skills, and a robust delivery framework.

WHAT WE DO

We offer comprehensive information technology solutions to companies in but not limited to the East African region. We have worked and continue to work with companies in Rwanda, Kenya, Tanzania and Uganda. We therefore provide a variety of tools to aid businesses of all kinds achieve success on and off the web. These IT solutions in turn have formed the backbone of our own business.

Our areas of expertise include but are not limited to:

Web Presence and Website design

Web Application Design

Data Base Solutions

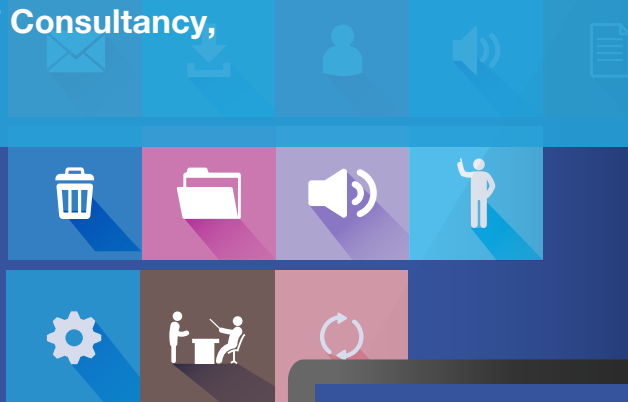

ATM Animations

Mobile Applications

Information System Audits

Customer Specific Programmed Solutions(CSPS)

IT Consultancy,

OUR VALUES

Excellence

We strive relentlessly; constantly improve ourselves, our teams, our services and products to become the best. We think that our clients deserve the best, and we are very passionate about this. At KAINGroup we believe that every software project should be better than the previous one. Every website design should be unique and aesthetically more appealing than the rest. Every solution that we create should have a bigger impact than the previous one. And every product or service that we market should get more market than the last project.

Integrity and Transparency

To be ethical, sincere, and open in all our transactions. We are honest with the client, ourselves, and with the people we interact with. This is the most cherished value that we take very seriously. Experience tells us that honesty pays in terms of personal satisfaction and customer loyalty. We adhere to the highest level of professionalism in all our efforts.

Accommodating

At KAINGroup we understand that clients have their constraints. We try our best to accommodate the needs and circumstance of the client, and do our best to meet their expectations, in terms of budget, time line and quality.

Client Centred Service

Serving our clients is our highest priority. Everything we do serves this purpose directly or indirectly. We respect our clients, understand their needs and wants, and do our best to fulfill them through the services we deliver. Each happy and satisfied client is a milestone for KAINGroup.

Innovation

Our team is dedicated to providing innovative high quality products and services that we stand behind, which ensures customer satisfaction, and profitability by employing the best available practices, and always challenging ourselves to improve through innovation, creativity, strategic planning, collaboration and teamwork.

OUR SERVICES

KAINGroup Ltd. specializes in the design of all computer (audio-visual) and print related material. This includes web material, software, print media, CD brochures and directories among others.

A. INNOVATIVE DESIGNS

WEB DESIGN

We design cutting edge dynamic web sites, which act as mini applications. We design websites which dynamically display information. We have designed dynamic websites for clients like National Social Security Fund, Uganda Telecom, Uganda Police Force, Uganda National Bureau of Standards, Kampala Pentecostal Church, Economic Policy Research Centre, Wilsken Agencies, ProPlan Partners, Futures Architects, Family Life Network, Ministry of Posts & Telecommunications, Government of Southern Sudan and many others.

WEB APPLICATIONS

Should the client require professional web applications, we design and implement a host of solutions, from complex eLearning Systems, e-commerce systems, to simpler online tracking systems.

MOBILE APPS

We are developers of Mobile Apps for corporate clients and other businesses alike. These fascinating Apps are developed on all major platforms that is; iOS, Android, Windows, among others.

DATABASE APPLICATIONS

We design and develop an array of database application solutions so that clients can manage their data, and business critical processes, in a timely and efficient manor.

IT CONSULTING

Information Technology should support a business's strategy, not constrain it. We help companies address technology-related decisions in order to archive their short & long-term goals.

OUR SERVICES

B. INNOVATIVE SOLUTIONS

AUDITS

We provide IT auditing to evaluate an entity's information systems and the safeguards in place to protect information assets. We recommend strategic business action related to IT processes & systems for increased efficiency.

MAINTENANCE & SUPPORT

We offer software maintenance and support services for your systems so you gain time to concentrate on your business and your customers. We ensure the effective and efficient operation of your systems at all times.

ATM ANIMATIONS

We develop visual effects using flash animation strings for automated teller machines. This provides a great advertising platform for our clients on their ATMs.

CUSTOMER SPECIFIC PROGRAMMED SOLUTION (CSPS)

Customer Specific Programmed Solutions cater for our clients with special system requirements. We develop software to suite your unique business processes and demands.
